

# PRIVATE SLAPPING LESSONS

Taught by Kaylee Frenette

I have been slapping for 8 years. I was a four-time varsity starter at Chippewa Falls High School and I currently am playing Division 2 softball at Upper Iowa University. I also have been teaching players how to slap for a few years. This summer I will be giving private slapping lessons to anyone that would be interested. Please contact me if you are interested or with any questions you may have.

# *Why become a Slapper?*

This is an excerpt from the  
**National Scouting Report**  
**February 2, 2015 by Trey Miller**

***“Great slappers are a hot commodity to college coaches. You can teach a player a lot of things, but you cannot teach speed. Many coaches have already fallen in love with slappers, and many more are starting to realize their importance to a team and to the game.***

***It takes time & determination to become an elite slapper. But, if you feel that you can be a weapon on the field by transitioning to become a slapper, then you will have a chance to bring something to the table that will set you apart from the others.”***
